

LA HomePass: Take Control of Your Home Wi-Fi Network

Powered by
Plume HomePass®

A lack of visibility into your home Wi-Fi network leaves you in the dark—with limited insight and control over your network and the devices connected to it.

LA HomePass changes the game, allowing you to see, optimize, and control your network and the devices connected to it through one simple app on your phone.

The LA HomePass solution includes access to the software and two SuperPods. The first SuperPod can act as a router, plugged into the Ethernet cord that brings your Internet service into the home. The second SuperPod needs only a power outlet to plug into to help extend Wi-Fi coverage throughout the home. Additional SuperPods are available for larger homes or those homes with unique construction.

\$10/mo: LA HomePass app with 2 SuperPods

\$3/mo: Each additional SuperPod, if needed

Visit our website at lamotte-telco.com to learn more. Contact our office for an installation appointment, and start getting the most out of your home Wi-Fi network!

Call or stop in at the business office for the sign-up form.

Thank You From St. Paul Lutheran

Many thanks to all who supported the St. Paul's Harvest Benefit, which this year benefited La Motte Fire & Rescue service. This would not be possible without the generous support from so many from far and wide.

La Motte/Andrew Television Channel Lineup Price Changes Coming

Each year, media companies raise the per subscriber rate on the television service we provide to our communities, which means we need to respond by increasing our lineup rates.

At this writing, we don't yet know what that increase will be. As always, we continue to strive to offer affordable options for our customers.

Television subscribers should watch their mail for a notice of television rate increase going out during the month of December. New rates will also be on our website at lamotte-telco.com once they are determined.

Emergency Broadband Benefit (EBB) Program

The Emergency Broadband Benefit is a **temporary** FCC program to help households struggling to afford internet service during the pandemic.

The benefit temporarily provides up to \$50/month discount for broadband service.
